ABOUT US

APEX Light Steel Building Solutions

ABOUT US

Apex is a Zimbabwean based company specialising in the design and manufacture of light steel components and the construction of structures using these building systems.

We service all sectors, including residential, industrial, agricultural, and mining. With our computerised software and production we deliver efficient engineered structures and components.

MISSION

To supply products and services to our customers that exceed their expectations through continuous development of our people, products and systems. We focus on adding value to our Steel products and assisting our clients with their construction requirements.

VISION

To be a company well respected for Light steel products, construction services and an innovative approach.

CORE VALUES

INNOVATION

We embrace modern technology to improve the building process.

SUSTAINABILITY

We believe in eco-friendly and sustainable building solutions.

CUSTOMER FOCUS & QUALITY

Providing exceptional service to meet client needs is our priority.
